Here's a "dopey" story from Boston. It says that Second Baseman Quinn and Third Baseman Cross of the Clevelands are to replace Childs and McKean of the St. Louis. Childs is worth the pair and McKean is only a few per cent below "Cupid." A pretty trade that would be. It is reported that Manager Tebeau had a chill when he read the report.

Place Gus Weyhing with a team like the Cincinnatis or the Bostons and he would be one of the most-talked-about twirlers in the big league. He hasn't lost a game for the Senators this season. The contests he has not won were solely the fault of his support.—Washington Star. Why with Cincinnati?—St. Louis Globe-Democrat. Cincinnati and Boston are the best fielding teams in the league.

Some unique, antique and juvenile specimens occupy the Senatorial bench. Irwin has Latham and Gus Weyhing, two base ball mummies, a kid pitcher who stands 5 feet 10 inches in height and weighs but ninety pounds, truly the tenderest, callowest youth that ever attempted to pitch in this league of base hitters. Then he fills in with a job lot of minor league players, men like Dick Padden, whose arm is quite dead; mideste like Siedle with the fills. dead; midgets like Slagle, who is much smaller than the famous Casey of Brook-lyn, and giants like Freeman, who hit only lyn, and giants like Freeman, who hit only one ball a week, and then hit it over the fence. The Washington club certainly is a droll troupe.—St. Louis Republic. The above was written after Friday's game. This same troupe made the St. Louis gang look like "30 cents" Saturday.

Earl Wagner's men have abused our confidence shamefully. We figured on them as dead easy picking, and they threw us down. Fact is, that Washington team as now made up is likely to go on the rampage and do up any pitcher any day. They need

DISTRESS ON EDMONTON RANGE. Prospectors Suffering From Frostbite and Scurvy. PORT TOWNSEND, June 5 .- Another

confirmation of the death and distress on the Edmonton range is brought by J. F. Storey of Ontario, a passenger on the steamer Dirigo. Storey and three others started for Dawson seventeen months ago over the Edmonton route, but were unable to get through. He says there is a section of country betweeen Peace river and Nelson that was never traveled by a white man or Indian. The country is one continuation of swamps and sloughs. For weeks he and his companions slept in clothes and blankets saturated with water. The twenty-one head of horses, with which they started died, and they were compelled to retrace their steps. At Laird river they found thirty men suffering from frostbites and scurvy. Some had turned black as far and scurvy. Some had turned black as far up as their thighs. At every camp they found sickness and distress. They gave out their provisions until they ran short them-selves. For six weeks they lived on rabbits which they snared.

On reaching Telegraph creek Storey reported the situation to the magistrate, who at once started at relief expedition. He

says the number of people who have per-ished on the trail will never be known. LEAVES HONG KONG TOMORROW.

Admiral Dewey Much Improved by His Restful Stay There. HONG KONG, June 5.-Admiral Dewey left the Peak Hotel and returned to the Olympia yesterday. This morning he paid farewell calls to the governor, Gen. Gascoigne, and the commanders of the warships in the harbor. Admiral Dewey's health has been considerably benefited by his residence at the Peak. He has refused all social invitations and has taken a perfect rest. He appears somewhat haggard from the effects of the continual strain he has been under and of the climate.

The Olympia will sail at 4 o'clock tomorrow afternoon, but Admirai Dewey will not

give a farewell dinner, nor will he accept It is hoped that the quiet change and the voyage will quite restore him to health by the time he reaches New York. The details of the ports at which he will call are still undecided, but it is probable that stops will be made at Singapore and Colombo. The admiral seems anxious to avoid all display and merely to seek rest. His officers and crew are elated at the prospect of a return home
